PROFESSIONAL SUMMARY

Computer Science graduate (CGPA 8.7) with hands-on experience building full-stack Java applications using **Spring Boot, Hibernate, and RESTful APIs**. Skilled in designing secure, JWT-authenticated backend systems and responsive front-end interfaces with **HTML, CSS, and JavaScript**. Experienced with **Docker, AWS, and Jenkins** for containerization, cloud deployment, and CI/CD automation. Seeking a Full-Stack/Backend Developer role to apply strong fundamentals in **OOP, database design, clean coding practices, and software development lifecycle**.

TECHNICAL SKILLS

Programming Languages: Java, Core Java, Advanced Java, JavaScript, SQL

Backend / Frameworks: Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, JPA, JDBC, RESTful APIs, JWT Authentication

Frontend & Database: HTML, CSS, JavaScript | MySQL, Oracle SQL

Tools & DevOps: Maven, Postman | Git, GitHub | AWS EC2, Docker, Jenkins

EXPERIENCE

Java Full Stack Developer Intern

Feb 2026 – Jun 2026

JSpiders, Bengaluru

- Developed backend modules using **Core Java, JDBC, Hibernate, and Spring Boot**, implementing CRUD operations and RESTful APIs, reducing boilerplate code by 30% through ORM best practices.
- Designed and implemented secure authentication and role-based authorization protocols using **Spring Security and JWT**, directly applying identity management concepts to secure REST API endpoints.
- Designed database schemas and wrote optimized SQL queries using **MySQL and Oracle SQL** to support core data workflows, ensuring system scalability and performance.
- Built responsive web interfaces using **HTML, CSS, and JavaScript**, ensuring consistent UI behavior across desktop and mobile screen sizes.
- Utilized **Git** for version control, **Postman** for API testing and debugging, and **Docker, Jenkins, and AWS** for containerization, CI/CD automation, and application deployment, gaining hands-on exposure to standard software development and deployment lifecycles.

PROJECTS

HirePulse – Job Portal Web Application

Java, Spring Boot, Hibernate, JPA, JDBC, MySQL, REST API

- Architected and developed a **full-stack Job Portal** supporting job seekers and recruiters with end-to-end workflows for user registration, job posting, job search, resume management, and online applications.
- Secured RESTful APIs using **Spring Security and JWT-based stateless authentication**, implementing role-based access control for different user types.
- Designed and optimized **MySQL** database schemas for users, job listings, resumes, and applications while developing responsive frontend interfaces using **HTML, CSS, and JavaScript**.

NexusTech – E-Commerce Web Application

Java, Spring Boot, Hibernate, JPA, JDBC, MySQL, REST API

- Architected and developed a **full-stack E-Commerce application** using Java and Spring Boot, implementing product catalog, user authentication, shopping cart, checkout, and order management workflows.
- Implemented secure authentication and authorization using **Spring Security and JWT**, with RESTful APIs for managing products, customers, orders, and transactions.
- Integrated **Hibernate, JPA, and MySQL** for efficient CRUD operations and database management, while developing a responsive frontend using **HTML, CSS, and JavaScript**.

EDUCATION

Bachelor of Engineering (Computer Science and Engineering) – Don Bosco Institute of Technology, Bengaluru

2022 – 2026 | CGPA: 7.3/10

Pre-University Course (PUC – Science – PCMB) – BGS PU College, Bengaluru

2020 – 2022 | 75%

CERTIFICATIONS

- Java Full Stack Development** – JSpiders | Feb 2026 – Jul 2026
- DevOps Beginner to Advanced (Docker, Jenkins, CI/CD)** – Udemy | Dec 2025 – Mar 2026
